

USHA Society
Sahastradhara Road, Dehradun

Minutes of Executive Committee Meeting Held on 6th February, 2021

The following Members were present:

1. Sri N. Ravi Shanker 2. Sri Anand Bardhan 3. Sri Ajay Joshi 4. Sri S.P. Subuddhi 5. Sri Samir Sinha

1. Sri Arvind Kumar, representative of M/S High-Tech Envo Systems, Kanwali Road, Dehradun is present. His firm has been given the contract for Design, Installation and Commissioning of STP with flow rate of 3000 LPH, Capacity 60.0 KLD with MBBR Technology in our society.

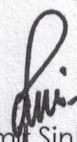

Progress of the work was reviewed. Sri Kumar apprised the EC that fabrication work for the plant is nearing completion in his factory and that on site installation will likely begin within one week. The President expressed the hope that the plant shall be functional latest by 28th February, 2021. Sri Kumar assured that barring any unforeseen exigencies, this shall be adhered to.

2. The EC took on record the building maps submitted by Sri S. Ramaswamy, Member, Plot No. and Sri C.S. Napalchyal, Associate Member, Plot No. . The maps were approved, subject to final approval bt the MDDA. The EC hoped that the member and associate member shall start construction of their houses at the earliest.

3. The EC also took on record the email message dated 30th January, 2021 from our member, Sri Satyendra Kaushik on the EC's response to his request for approval for proposed construction on plot no. 36. It was pointed out that approval of house plans by the EC should ideally precede submission to the MDDA. Further, the normative standards for construction within the society have been laid down by the members themselves and it is expected of each member to adhere to the same. Non adherence to the same by some members does not validate further non adherence by others. As regards solar panels etc. not being supported on sloping roofs, there are several such installations already within the society which can be seen for guidance.

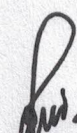

The meeting ended with a Vote of Thanks to all present.

Dated 6th February 2021

(Samir Sinha)
